# Our philosophy:

## Design for the best quality of life

---

When designing your kitchen, you're looking for materials, appliances and a design that will fit your every need. With our new generation of appliances, we are proud to offer you two new design worlds in carefully selected colors and materials that will integrate perfectly into every lifestyle and every interior design.

We believe that design encompasses the outward appearance of an object, as well as the experience of using it. This is the principle on which our new built-in kitchen appliances are based.

Miele is excited to launch our latest range of appliances - products that flawlessly complement one another in terms of form, function and fit.

individual combinations

intuitive operation

inspirational materials

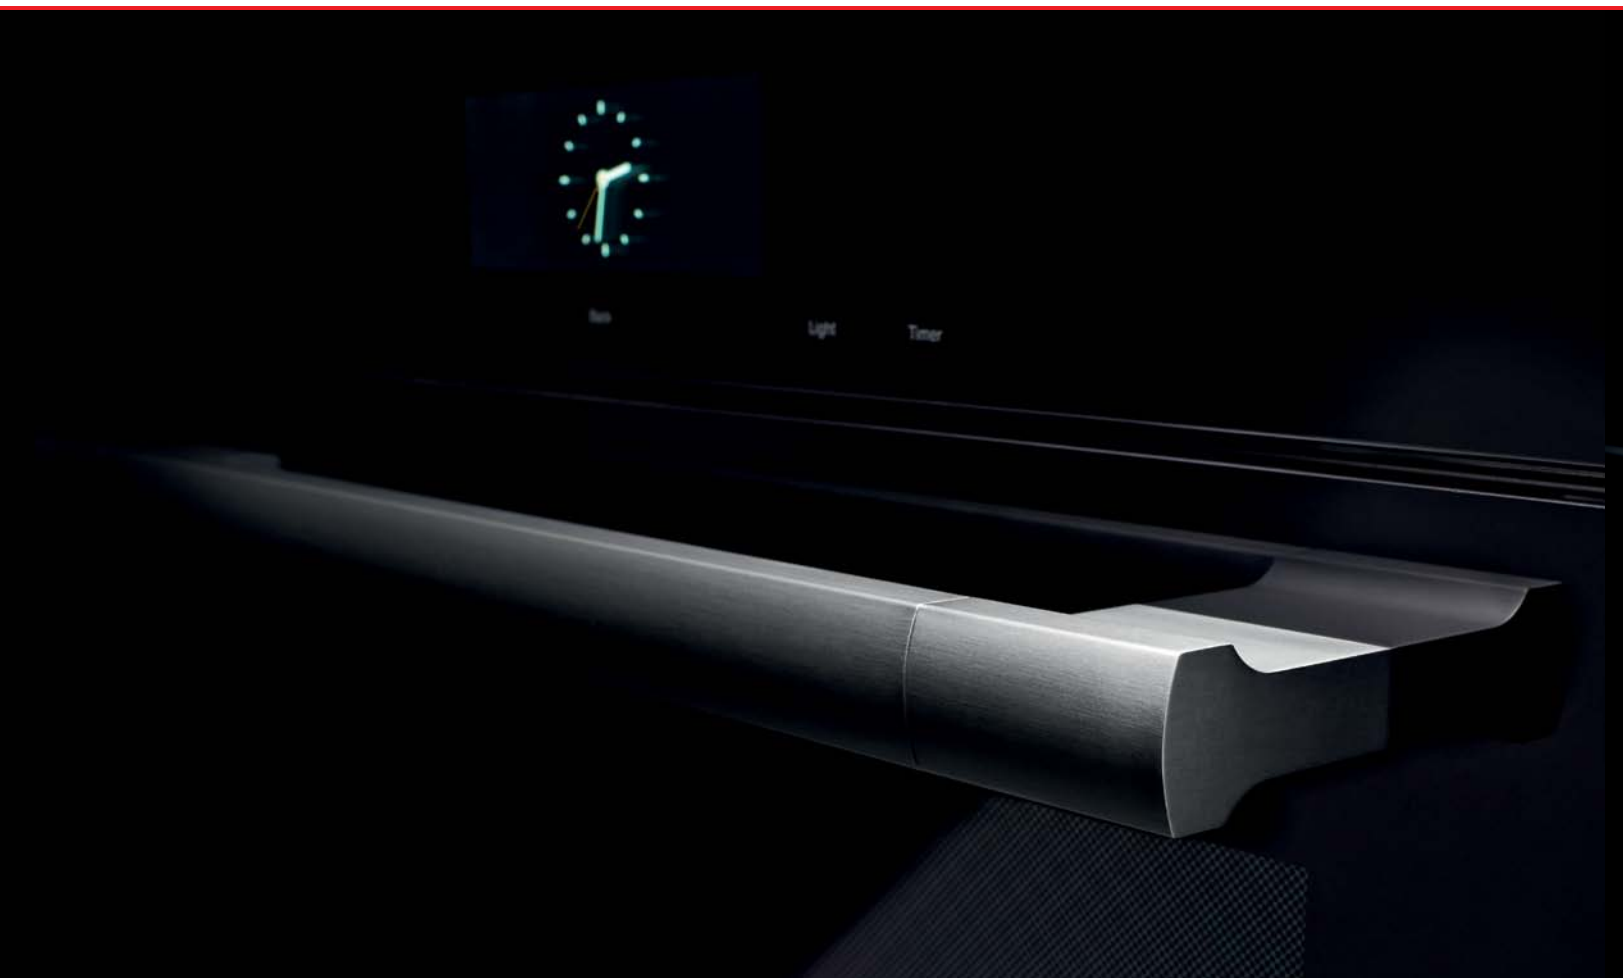

Our two new design worlds:  
**ContourLine...**

...and PureLine

# ContourLine

**ContourLine** demonstrates confidence and presents itself as a worthy partner. You can feel the technology behind it – professionalism and a passion for cooking. Familiar elements reinterpreted, conveying high-end quality and an intentional design.

Features you may have come to know on Miele ovens, have not been redesigned, rather reinterpreted. The solid handle forms part of the frame, using high-quality materials and carefully designed construction. Clear lines separate different elements, allowing design materials and functionality to be cleverly combined.

# PureLine

**PureLine** melds seamlessly into the design of a modern kitchen. The high proportion of glass creates a serene atmosphere, while a floating handle engages onlookers to explore the design line further.

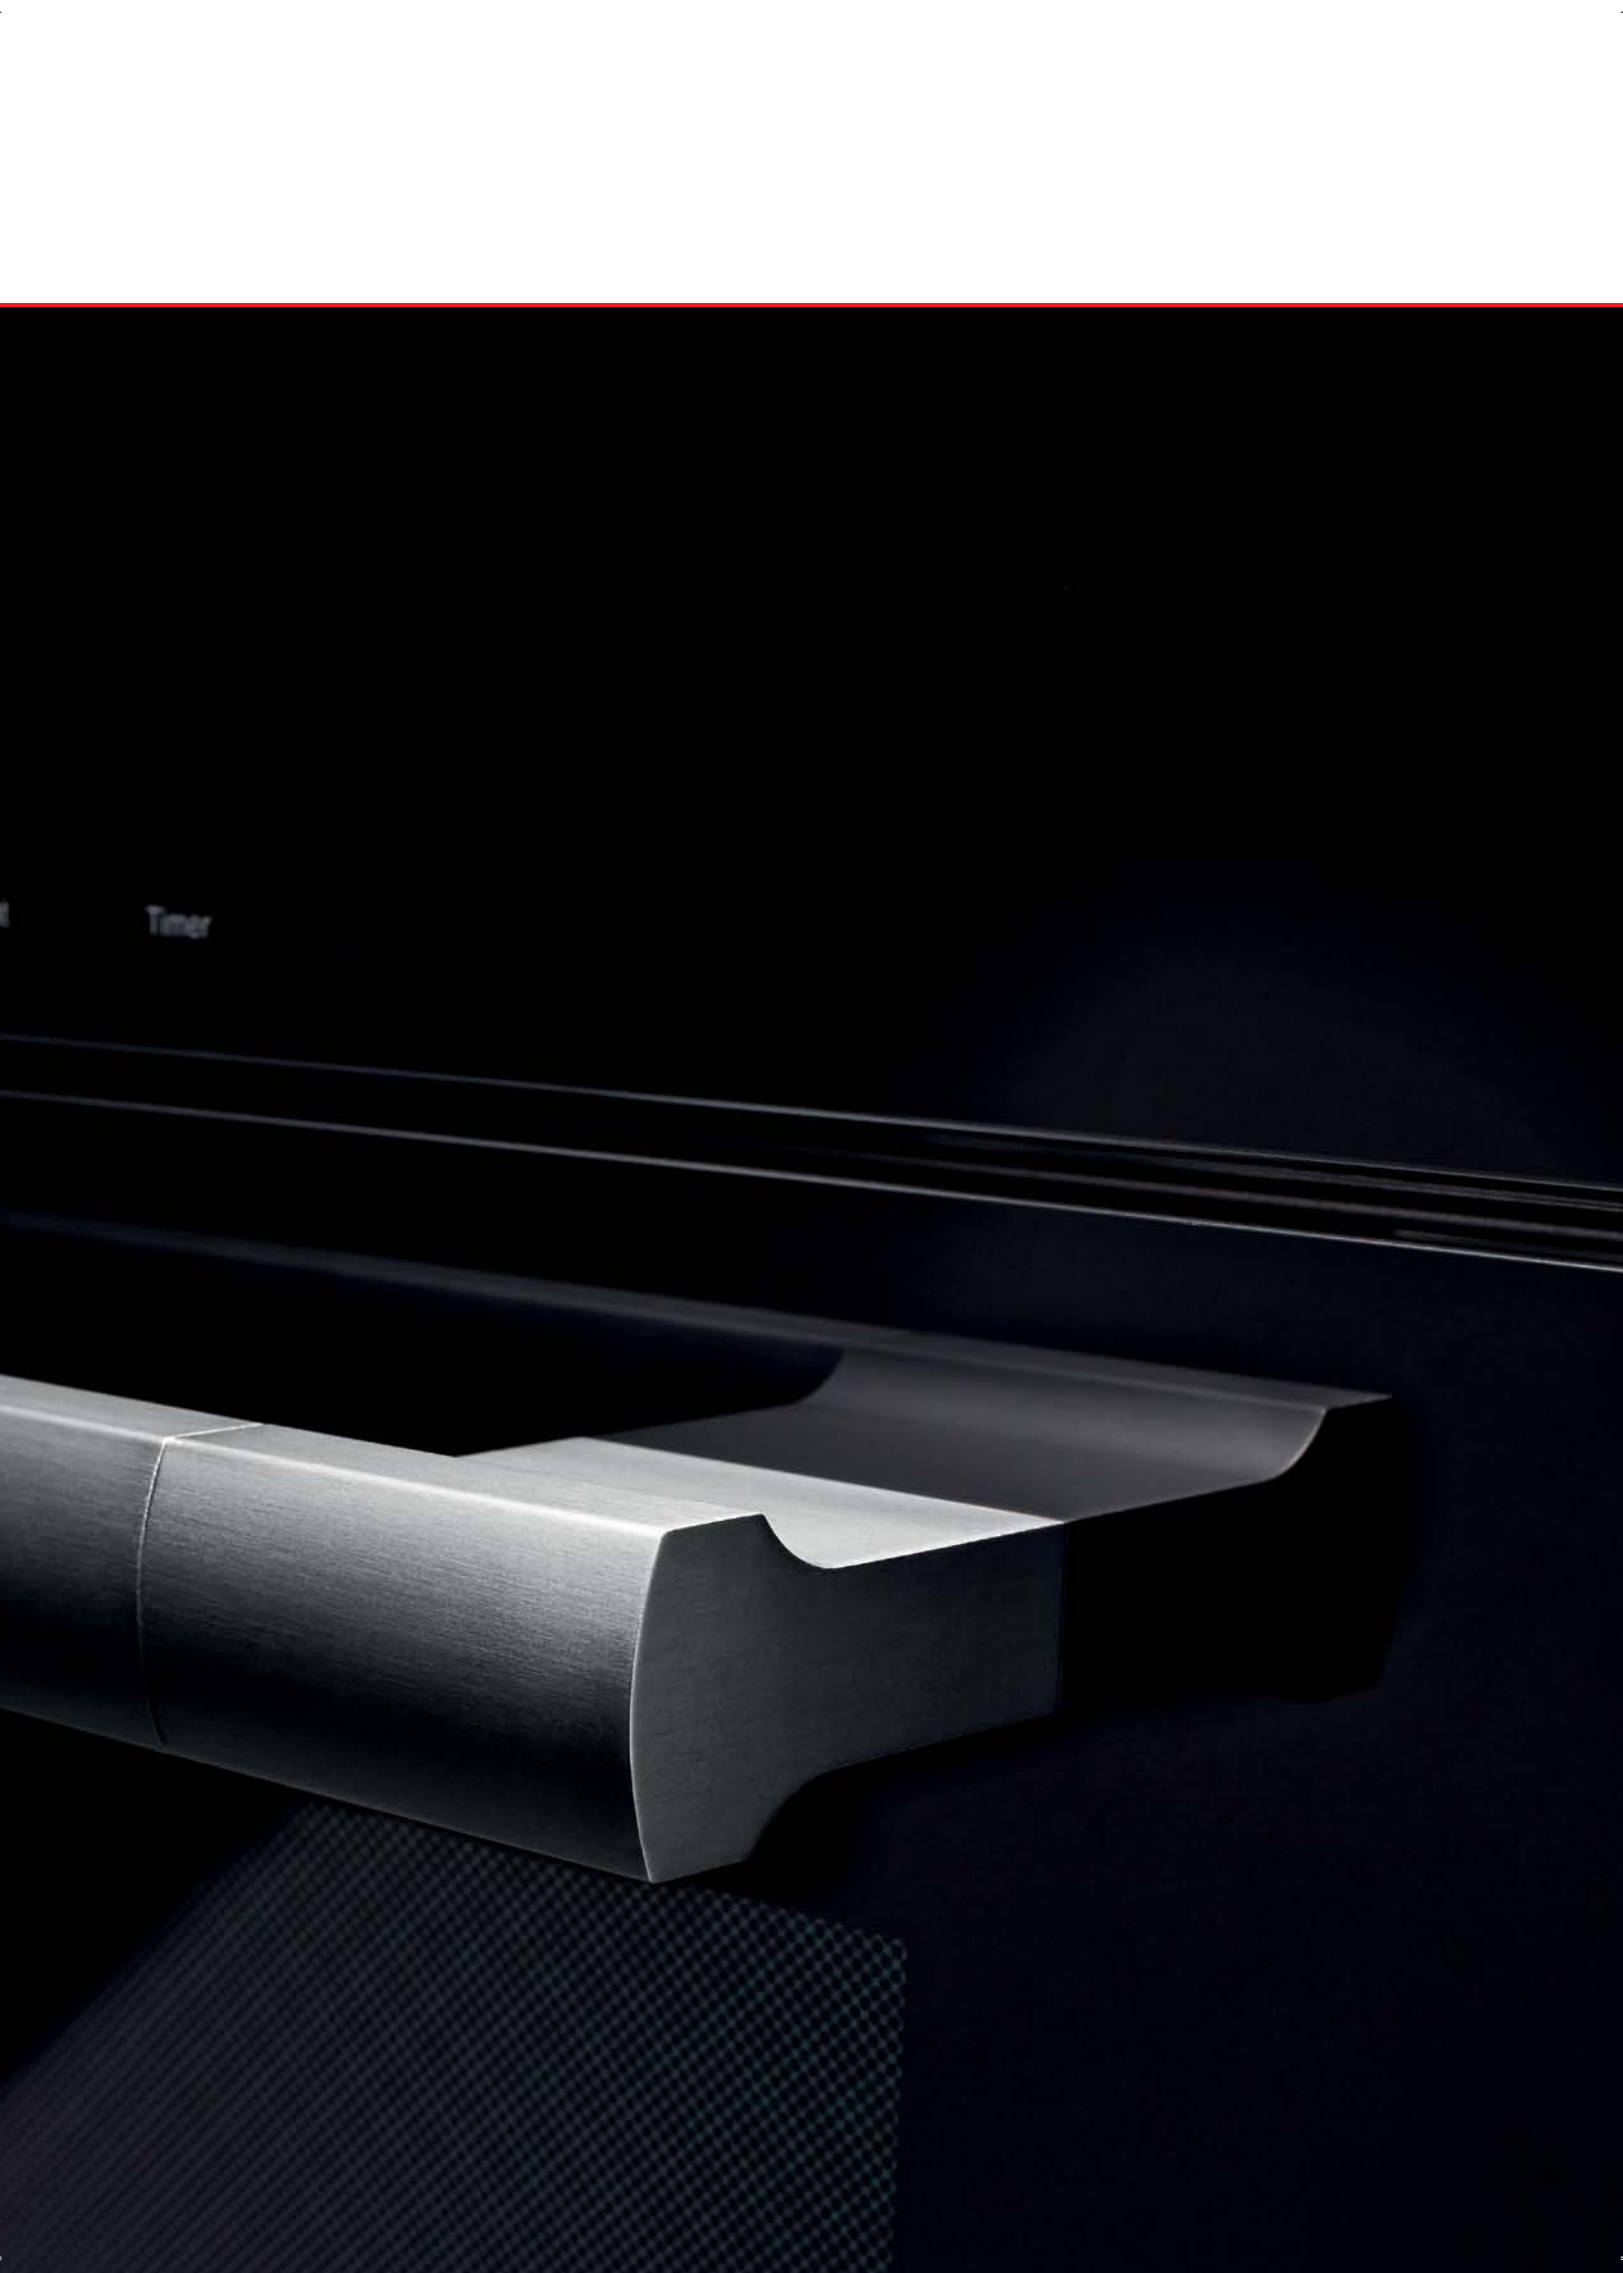

ContourLine

**Brushed CleanTouch Steel with striking framework**

# ContourLine

## CleanTouch Steel

ContourLine offers a first-class cooking experience in today's kitchen. A noticeable presence of CleanTouch Steel gives the geometrical lines and design frame a lively look, while at the same time offering complete comfort.

# ContourLine

## Combinations

The ContourLine aligns perfectly in terms of design, functionality and user interface. Thanks to its symmetrical design and seamless uniformity, the ContourLine can be combined perfectly with complete versatility.

PureLine  
**Quality and detail**

Timer

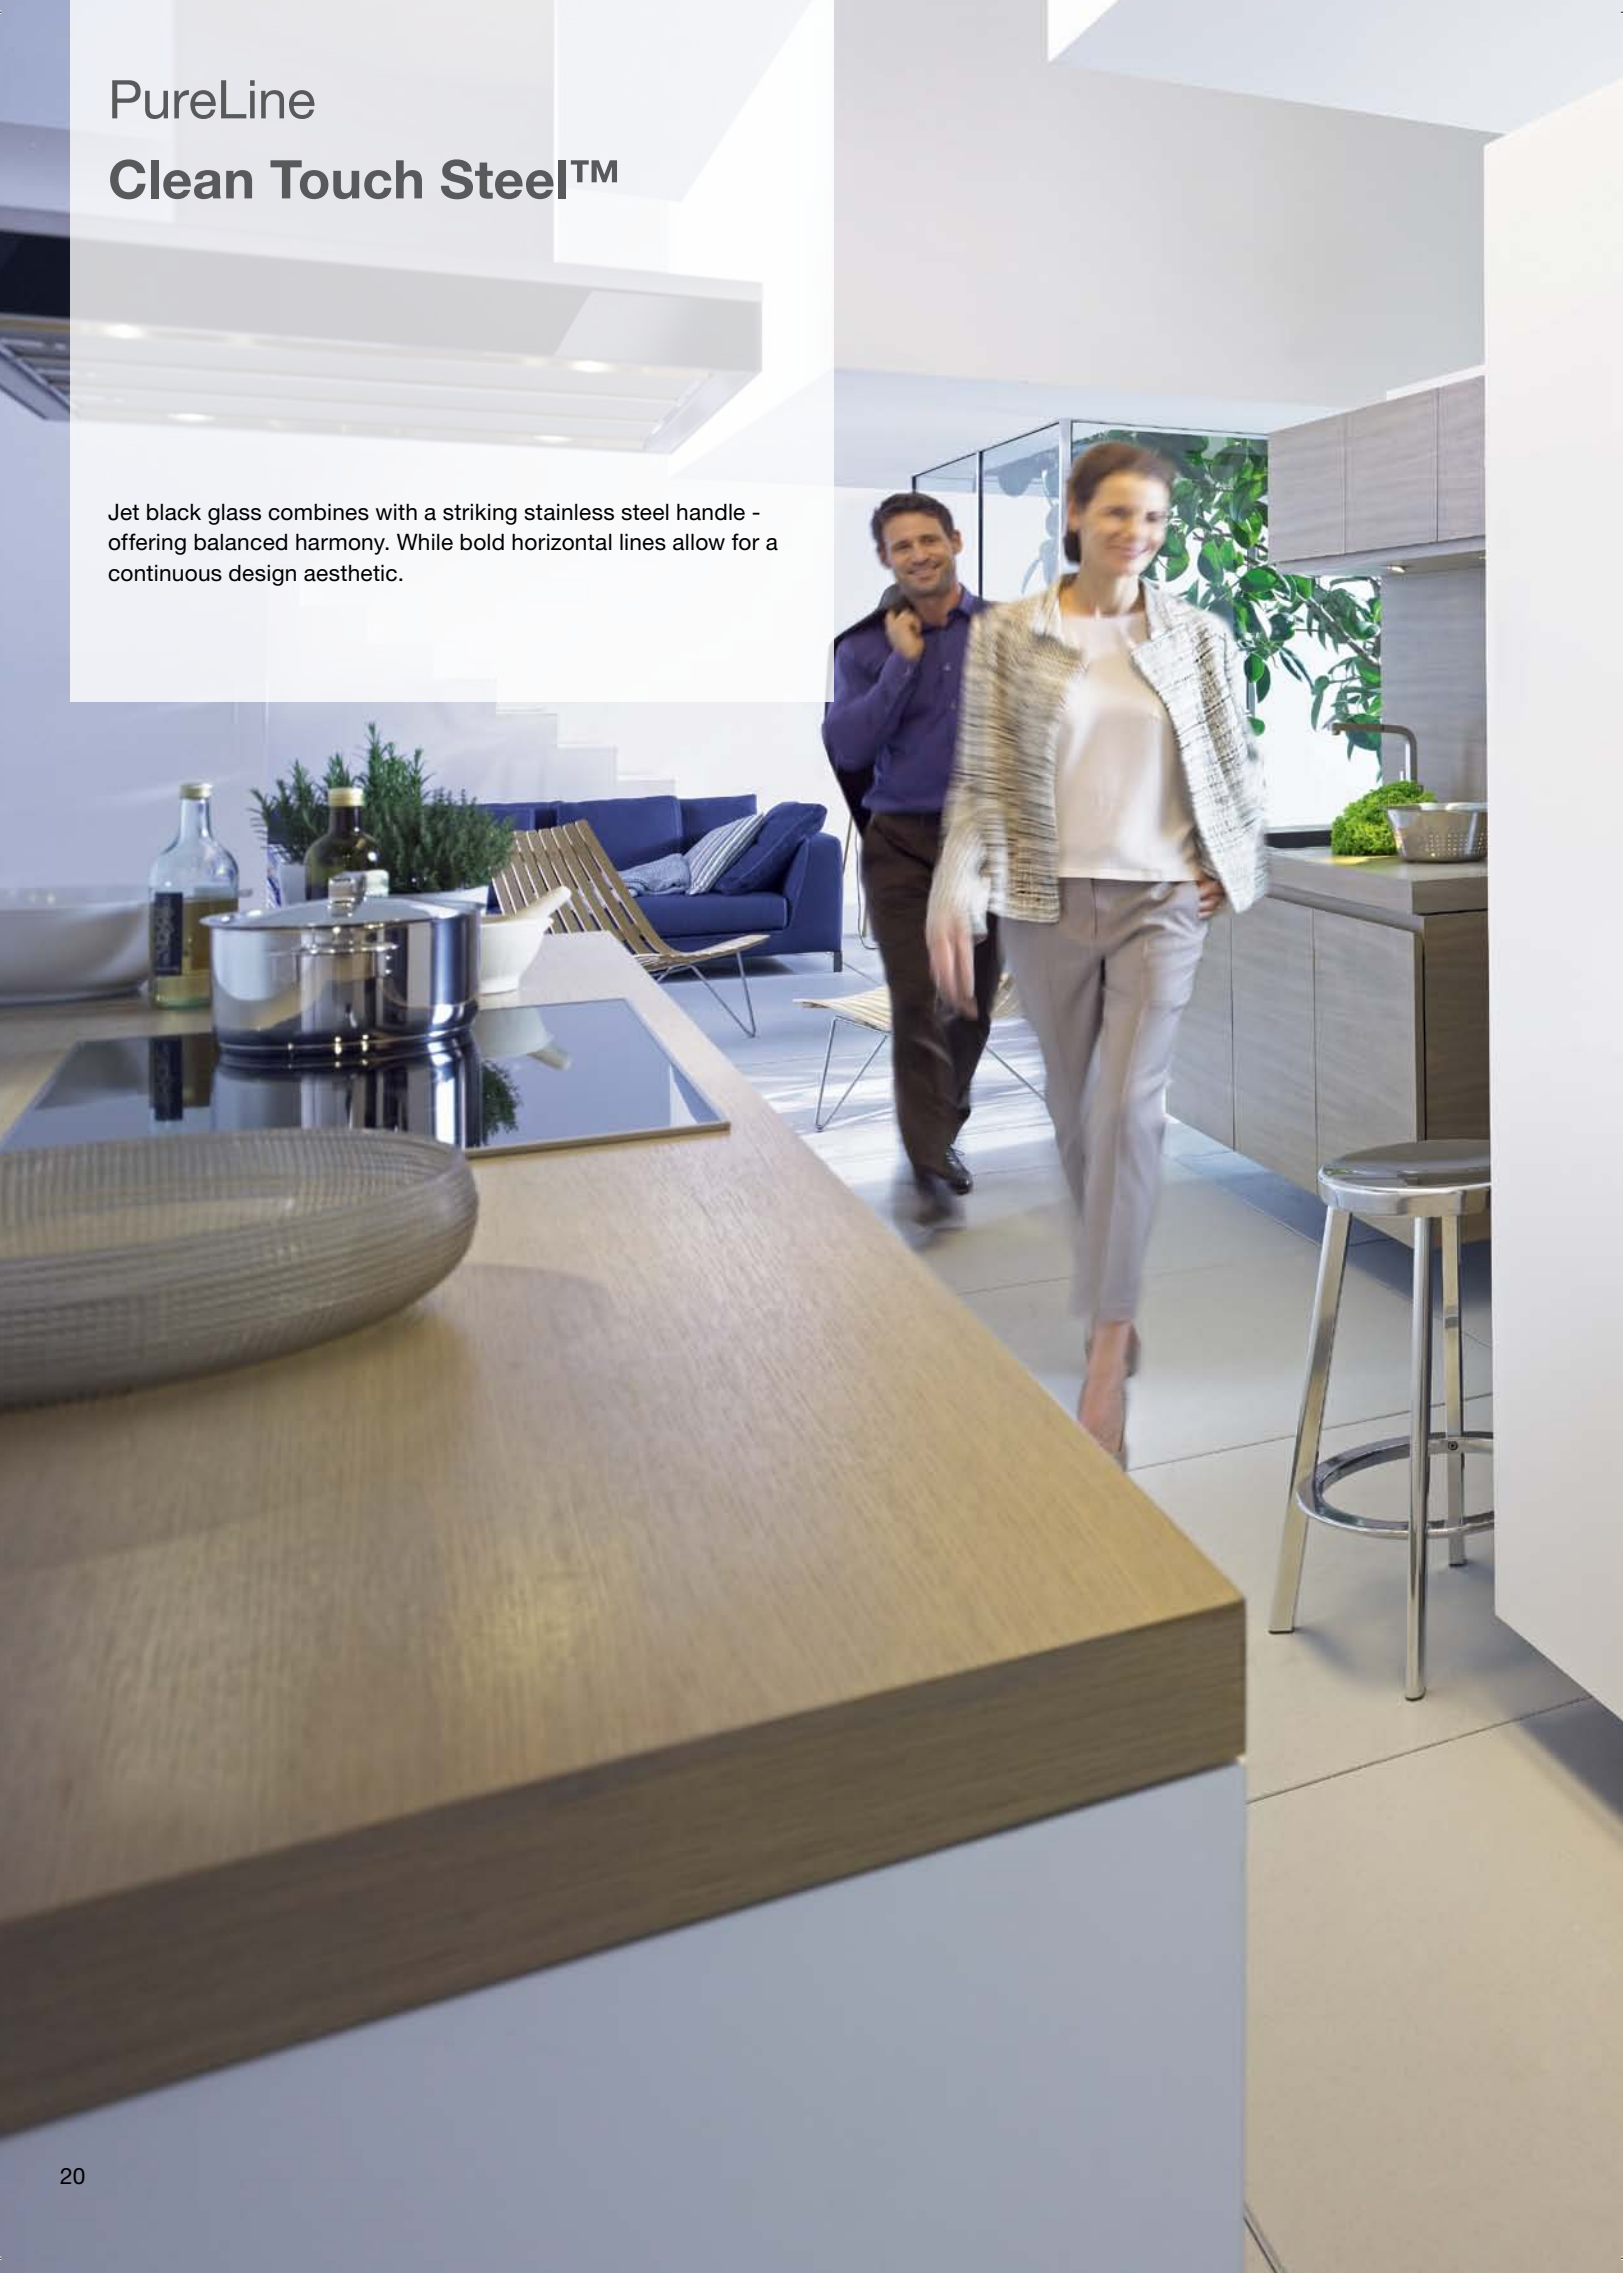

# PureLine

## Clean Touch Steel™

Jet black glass combines with a striking stainless steel handle - offering balanced harmony. While bold horizontal lines allow for a continuous design aesthetic.

# PureLine

## Brilliant White

Brilliant White will have you testing the limits of design — demonstrating what can be achieved through colour options that stimulate the imagination. Opt for a dramatically chic statement with the cool, crisp lines of the Brilliant White — taking the minimalist look to the extreme.

# PureLine

## Combinations

The uniform design of the entire product range creates a harmonious impression, whether your appliances are installed vertically, horizontally, as a square or in a T-shape configuration.

# M Touch

## Fingertip controls

Achieving results fast with an innovative touch display: Miele's new M Touch controls are both easy-to-operate and navigate. An intuitive swipe of the screen will quickly lead you to your desired selection. Whether choosing an automatic Chicken program or calling up one of your Favorites, the screen will provide a pleasing visual with easy to read touch controls.

## Ventilation Hoods

## Coffee Systems

## Refrigeration

Our diverse product family offers the perfect solution for your culinary and entertaining needs, from our Combi-Steam oven, the perfect one-oven solution for your home, to the spacious 30 inch oven, perfect for those large family dinners. The consistency of each appliance's look makes for a harmonious design. The display is always located in the center of the control panel – no matter which user interface you decide to have. The result – almost any of the appliances can be combined to create a symmetrical design and seamless uniformity. Design, in our eyes, not only relates to an object's exterior, but also to the user's experience. Inside the appliances, you will find the latest technology and functionality, allowing you to discover your inner chef, or barista, sure to impress those around you.

# Exclusive features for gourmet results

## Oven highlights

### Moisture Plus

Each type of food has its own specific properties. Knowing them and making the most of them is the true art of cooking. In the past, bakers held the monopoly on preparing the perfect bread and rolls. Now you can too, in a Miele oven with Moisture Plus. Increasing the humidity in the oven optimizes the cooking of a variety of foods: soft bread with a shiny, appetizing crust; dinner rolls and croissants as if from the local baker; succulent, tender meat with a nicely browned crust, perfect casseroles, delicious pastries and so much more.

#### **Wireless Roast Probe**

No supervision necessary: the countdown indicator provides correct-to-the-minute information on how long a program has yet to run. With a now wireless connection, the roast probe is extremely safe to use as you can now insert the probe outside of the oven.

#### **FlexiClip with Wire Rack**

Flexible and safe: handle dishes with ease as the rack slides easily out of the oven.

#### **MasterChef Programs**

Found in the Gourmet Center, choose from over 100 easy-to-use programs for items such as baked goods, pizza, turkey and much more making preparation a breeze. Miele will deliver menu options that guide you step by step to the desired oven mode and temperature to create the perfect dish.

#### **MasterChef Plus Programs**

Found in the Gourmet Center, 15 Automatic bread programs bake as if from a bakery, guiding you to the correct mode, temperature, time and integration of Moisture Plus to create the perfect bread.

#### **TwinPower Convection Fans**

Two convection fans inside the oven provide rapid heat-up of the oven and optimum hot air distribution. The oven is quickly ready for use.

# Speed oven highlights

## Excellent features for gourmet results

### **Combination Microwave and Convection Modes**

Versatile time-saver: combines microwave technology with conventional heat, to reduce your overall cooking time by up to 30%.

### **Microwave**

Full power at your fingertips: fast selection of the microwave function via touch control.

### **MasterChef**

Offering over 100 dishes: automatic cooking programs for optimal results.

### **Roast Probe**

Stress-free menu planning: the remaining program time can be easily viewed – supervising the process is no longer necessary.

### **Popcorn Button**

At the touch of a button: fast and easy preparation of microwavable popcorn.

A close-up photograph of the interior of a stainless steel speed oven. The walls are covered in a woven mesh pattern. Several horizontal metal strips are mounted on the wall. A glass door is visible in the foreground, reflecting the interior. The overall appearance is clean and modern.

### **Easy Maintenance**

The stainless steel, interior cavity of the speed oven features a woven pattern and PerfectClean finish – making clean-up effortless.

# Steam oven highlights

## Excellent features for gourmet results

### MultiSteam

Perfection to suit personal tastes - the Miele steam oven is a universal appliance, making a perfect partner with an oven or cooktop. You can make starters, soups, fish, meat, vegetables, side-dishes or desserts individually or as a complete meal in one cooking process. Individual preferences for cooking results can also be catered to with the Miele steam oven. Thanks to Miele's MultiSteam technology, external steam generation ensures perfect results. 8 steam inlets enable fast generation of steam and steam distribution, reduced heat-up times and uniform cooking results.

#### **Cavity Size**

Using the entire depth: it's easy to cook large quantities at once – saving time and energy.

#### **Menu Cooking**

A complete menu: automatic programs determine the temperature, cooking duration and sequence in which the food is added.

#### **Easy Clean-Up**

No limescale: thanks to external steam generation, cleaning is quick and easy.

#### **MasterChef**

Cook more than 150 types of food to perfection with ease: guaranteed results with fish, meat, vegetables and more.

#### **Reheat Mode**

When reheating foods, moisture is added to the environment to effectively heat food while keeping its integrity.

# Combi-Steam oven highlights

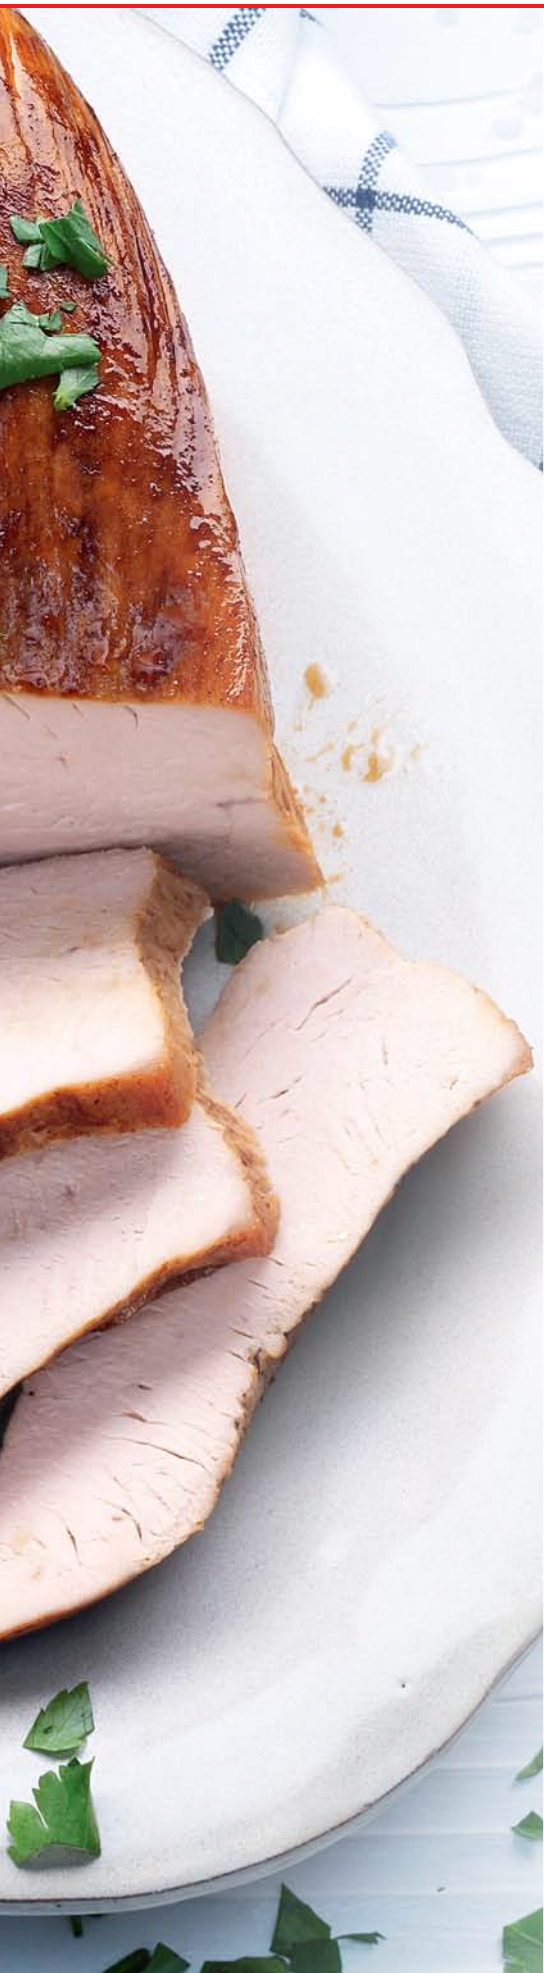

## Excellent features for gourmet results

### **MultiSteam**

Perfection to suit personal tastes – Miele's Combi-Steam oven is versatile enough to be the only needed in your kitchen. Creating appetizers, soups, fish, meat, vegetables, side-dishes or dessert individually or as a complete meal in one cooking process is always an easy task. Individual tastes for cooking results – firm or tender – can also be catered for. Thanks to Miele's MultiSteam technology, external steam generation ensures perfect results. 6 steam inlet ports enable fast generation of steam and steam distribution, short heat-up times and uniform cooking results.

### Fully fledged steam oven, convection oven and Combi-Steam oven

3 in 1: achieving perfect cooking, roasting and baking results with unlimited combination options.

### XL Cavity

Ample space: the extra large capacity of Miele's Combi-Steam oven allows for more flexibility and larger dishes. Complete meals can be prepared simultaneously for up to 13 people.

### Lift-Up Control Panel

Convenient: With the simple touch of a button, the control panel automatically lifts up, allowing for easy access to the dishwasher-safe water and condensate containers.

### MasterChef and MasterChef Gourmet

MasterChef offers over 100 easy-to-use programs for items such as baked goods, pizza, turkey and much more making preparation a breeze. MasterChef Gourmet offers automatic programs that use slow roasting methods to cook meat at lower temperatures for longer cooking times.

### Roast Probe

Miele's roast probe accurately records the internal temperatures of meats being cooked in your oven cavity. The roast probe replaces a meat thermometer, presetting a desired core temperature and shutting the oven off automatically when that temperature is reached.

Microwave oven highlights

**Excellent features for gourmet results**

**XL Cavity**

The spacious stainless-steel cabinet with TopControl can accommodate larger items and quantities, and cook, for example vegetables or defrost items to perfection. The turntable with 15.75" diameter allows flexible use of different cooking containers or several containers, cups or plates simultaneously. Food preparation on a larger scale.

#### **15.75" Turntable**

Plenty of space: perfect for several glasses, cups, plates or cooking containers of various sizes.

#### **LED Lighting**

High-quality and durable: LEDs place your food in the spotlight during preparation.

#### **Popcorn Button**

At the touch of a button: fast and easy preparation of one packet of popcorn.

#### **Automatic Programs**

Create dishes with ease: simply select one of 16 automatic programs, the weight of the food to be cooked and the appliance will do the rest.

#### **Memory Function**

Clever: programs consisting of up to 3 stages can be started and prepared automatically, without interruption.

# Plate and food warming drawer highlights

## The perfect temperature for dishware and food

#### **4 Operating Modes**

Meals with multiple courses can be a challenge. How do you maintain the quality of your prepared food, while keeping it warmed until it's served? And once served, how can rapid cooling be avoided? A convenient solution: Miele's built-in warmer drawers – the perfect match for your Miele built-in appliances. Warm cups and plates, keep food at serving temperature or defrost, proof or melt with temperature settings from 104 – 185°F. This ensures that you and your guests enjoy a delicious meal with every course.

#### **Touch Controls**

Simply convenient: program selection at the touch of a button via a flush touch panel.

#### **Timer**

Heat guaranteed: all warming drawers feature a 4-hour timer which switches off automatically.

#### **Self-Closing**

Gentle and quiet: a special buffer allows the warming drawer to close gently.

#### **Full-Extension Drawers**

Simply practical: the warming drawer can be pulled out completely for easy loading and unloading.

#### **Capacity**

Depending on the model, dishware for up to 12 people can be pre-heated.

# Induction cooktop highlights

## Excellent features for gourmet results

### Con@ctivity 2.0

Con@ctivity enables cooktops and ventilation hoods to communicate with each other, ensuring the hood operates at the optimum setting based on your cooking environment.

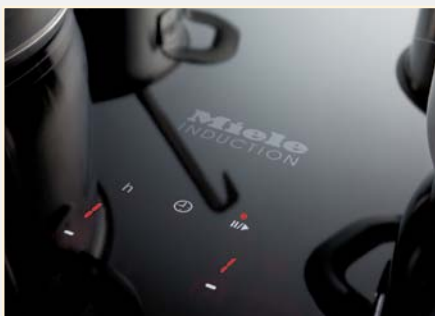

### Boost Function

When the Boost function is activated, the selected zone or zones will operate on power setting 9 for 10 minutes.

### Controls of Tomorrow

Direct Selection Plus controls offer fast, intuitive selection of output and time through separate backlit number runs for each ring.

### Perfect Response

For ultimate cooktop responsiveness, the Auto Heat-up function gives an initial thrust to the normal power output to bring the pan up to temperature rapidly.

### Stop and Go

When activated, Stop and Go automatically reduces the power level to the lowest setting for all active zones.

#### **PowerFlex**

Miele's cutting-edge PowerFlex technology allows you to combine two cooking zones into one – perfect for large items, such as a casserole dish or where extra power is required.

# Electric cooktop highlights

## Excellent features for gourmet results

### Control Options

Miele's electric cooktops offer a variety of control. Knob controls offer heat up with a quick turn. Direct Selection touch controls, available on 24" models, offer a fast, intuitive selection of output and times through a single number run for all burners. Direct Selection touch controls, available on 30" - 42" models, creates a fast, intuitive selection of output and times through separate backlit number runs for each ring. Low level back lighting highlights the possible selections and high level back lighting highlights active setting.

#### **Residual Heat Indicator**

This special safety device alerts you to residual heat from a specific burner after that burner has been turned off.

#### **Variable Cooking Zones**

Choose from a variety of cookware sizes that will fit with the variable cooking zones.

#### **Timer**

Perfect timing: this feature allows you to set a duration for cooking and will alert you once the time is complete.

#### **Black Ceran® Glass with Stainless Steel Frame**

Designed with an extremely durable Ceran® surface, this smooth, glass-like surface is designed to resist heat transfer. The electric burners only heat within the white surface rings. Areas outside the rings are insulated from heat and stay cool to the touch.

#### **Auto-heat up**

Always at the right time: this function gives an initial power boost before reducing power for continued cooking.

# Gas cooktop highlights

## Excellent features for gourmet results

### ComfortClean Grates

Fast cleaning: enjoy the convenience of removable, dishwasher-safe grates on select models.

### Individual Design

Attractive designs to suit all tastes: a professional stainless steel or elegant ceramic glass with professional looking stainless steel knob controls.

### Installation Options

Miele gas cooktops offer variety, allowing you to choose from different design installations. Choose a flush mounted cooktop for a completely seamless look, or a proud installation, adding a lip of stainless steel above your countertop.

### Fast Ignition System

No need to press or hold the control: convenient rotary electronic controls to switch burners on.

### Ignition Safety Control

For peace of mind: the gas shuts off automatically in the event of excessively long operation.

### Gas Cooktops with Powerful Burners

Miele gas cooktops deliver powerful, even heat at a level of control you can trust. So you can go from stir-frying at extremely high temperatures to simmering the most delicate sauces with a quick turn of the knob.

# CombiSet highlights

## Excellent features for gourmet results

### Appliance Widths

Choose from 12" or 15" on varied models: different widths allow you to mix-and-match to suit your needs.

### Stainless Steel Frame

Uniform frame design: no matter which combination of CombiSets™ are installed, they are always a perfect match.

### Knobs

Perfect match: stainless steel knobs complement the matching design of the CombiSet elements.

### Inclined Control Panel

Perfect look: the ergonomically designed control panel simplifies operation.

### Indicators

Safe and effective: a display with up to three indicator modes.

### Customized Cooking

Miele CombiSets marry style and convenience. Despite each appliance working independently of the others, all look as if they fit together. Installed next to each other, they create a uniform and elegant ensemble.

# Ventilation hood highlights

## Excellent features for a clean atmosphere

### **NoSmell Active Charcoal Filter**

The recirculation mode in Miele ventilation hoods is designed to use a NoSmell active charcoal filter in addition to the grease filter. This Miele filter not only binds unpleasant odours, it also neutralises them. The advantage; unlike on simpler systems, when you switch the rangehood on again the day after cooking something with a strong smell, such as fish, you won't notice a thing.

Miele

1000 WATT - 1000 WATT - 1000 WATT

V A

#### **LED Lighting**

Specially developed for select Miele ventilation hoods, LED lighting shines a more natural light to highlight the pure color and texture of your food, but also save energy. This long lasting LED lighting is tested to last the 20 year life cycle of your hood. Coming soon.

#### **Stainless Steel Grease Filters**

Convenient cleaning: the high-quality metal grease filters are dishwasher-safe and extremely durable, offering optimum performance to effectively filter grease, odor and steam from your kitchen.

#### **The Miele Acoustic Package**

Efficient and very quiet: the fan is effectively insulated with special soundproofing mats.

#### **Miele CleanCover**

Miele's unique CleanCover, a smooth liner inside the canopy, prevents exposure to live components, cables and sharp edges.

#### **Hand Crafted in Germany**

All Miele ventilation hoods are developed in Arnsberg Germany where they are produced largely by hand. Each and every Miele hood is a one-off. Each stage of the manufacturing process involves a certain amount of manual crafting from shaping the steel to welding and polishing it.

# Coffee system highlights

## Excellent features for gourmet results

### **OneTouch and OneTouch for Two**

Fully-automatic perfection: Preparation of one or two specialty beverages at the touch of a button. The OneTouch for Two function allows two glasses of latte macchiato or two cups of cappuccino, coffee or espresso to be made at the same time. Using the OneTouch function and pressing the button twice produces two hot beverages in succession. The prepared beverages are delivered conveniently via the central spout, eliminating the need to move glasses and cups around.

#### **Aromatic System**

Intensive coffee aroma: intelligent technology to achieve the best possible results.

#### **CupSensor**

Ideal distance: the unique CupSensor recognizes the rim of the cup and alters the position of the central spout accordingly.

#### **Easy Click Milk System**

Innovative and only available from Miele: the convenient milk system simply clicks into and out of place at the front of the machine.

#### **Automatic Rinsing**

Excellent user convenience: after the preparation of specialty beverages with milk, the appliance is automatically rinsed.

#### **ComfortDoor**

Easy access: convenient access to the bean, water and grounds containers, along with the drip tray.

## Refrigerator, freezer and wine storage units highlights

### Perfect results and more convenience

#### **MasterCool Technology**

Imagine meats and cheeses that stay fresher – longer. And spinach that doesn't wilt after a few days. We've created the world's most advanced refrigeration technology and developed MasterCool, a highly intuitive cooling system that locks in freshness and nutrients with the push of a button. With a few simple selections, your cooling system self-adjusts to the temperature and humidity in each independent cooling zone.

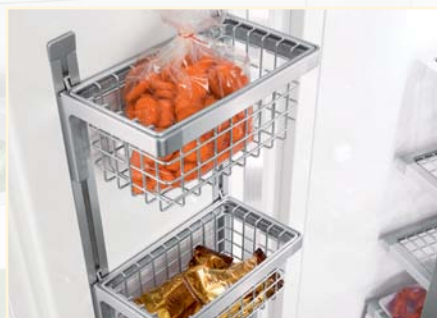

#### **BrilliantLight System**

This unique halogen-based lighting system illuminates every nook of the interior cabinet on each level to achieve maximum exposure of all contents.

#### **MasterFresh Drawers**

MasterFresh drawers allow you to store and preserve food items perfectly at their individual temperature and humidity requirements.

#### **RapidCool Loading**

An accelerated cooling process designed to lock in freshness, taste and texture, RapidCool™ will override the thermostat and begin cooling the cabinet to a reduced temperature: 35°F in the refrigerator and -22°F in the freezer.

#### **Drop and Lock**

Miele's convenient Drop and Lock system keeps each unit firmly aligned on its slide-rail framework so an easy 'tilt up and slide motion' is all it takes to move the unit higher or lower.

#### **Ice/Water Dispenser**

Available on select models, at the touch of a button you are treated to refreshing ice and water from the through-the-door Ice/Water Dispenser.

Features will vary depending on model

# Perfect results and more convenience

## Miele dishwasher highlights

### **BrilliantLight**

4 powerful LED lights illuminate the dishwasher from the inside out.

### **Flexible Basket Designs**

Unique: the flexible lower basket and the innovative upper basket offer a wide range of functions.

### **AutoOpen Drying**

The dishwasher door automatically opens at the end of the cycle, allowing air to escape and circulate. This can aid in perfectly drying even the most challenging surfaces, like plastics.

### **Perfect GlassCare**

Gentle and careful: this technology ensures that your glasses are cleaned gently.

### **Energy Efficient**

All Miele dishwashers are Energy Star rated, using advanced features such as water and soiling sensors to decrease the amount of water being used in each cycle.

### **3D Cutlery Tray**

The slide-out cutlery tray has long set Miele apart from other dishwashers, offering greatly improved space utilization compared with a standard basket. Miele's 3D cutlery tray – an innovation from the inventor of the category – provides a new level of convenience that adapts instantly to accommodate larger utensils, as well as taller stemware in the upper basket.
